

To all dam owners/operators/engineering consultants:

Recent developments in the State of New Jersey as well as around the country have brought increased attention to the condition of our infrastructure.

With that in mind, this office will increase its efforts to insure dams in New Jersey are brought into compliance with Dam Safety Standards.

This office will be notifying many dam owners who are overdue for inspections and are not in compliance over the next few months of their responsibilities to perform inspections.

Please bear in mind that with the increased attention on the condition of the State's dams, continued non-compliance will not be tolerated and the matter will quickly be referred to the Attorney General's Office for adjudication.

Should you have any questions, you may contact our office at (609) 984-0859 or visit our website at [www.state.nj.us/dep/damsafety](http://www.state.nj.us/dep/damsafety).
